CIS 104 Section 03 Project 1
Fall 2006
24 August 2006
History of Computing

ASSIGNED: 24 August 2006
DUE: 31 August 2006 (by the end of class - 10:50 a.m.)
VALUE: 10 points

Overview: In this project you will go through the exercises in chapter 1 of the AE book and write a short 1 page account of a specific historical event.

Tasks:

- Complete Lab 1.1 through Lab 1.3 in the AE book. However, you do not turn anything in for this part.

- \(10\) points In consultation with your instructor, pick one historical topic in computing between 1950 and 1999 to research. You need to settle on two internet accessible references. On the first page of your report include a title, your name, and a description on the historical event. On a second page place the references; which should include the names of the authors, title of the web resource, and the URL.

NOTE: If you quote directly from a reference, place the text of the quote in quotation marks. (Try to limit direct quotations however.)

NOTE: Use 1 inch margins on all sides, and spell check.

Submit the following:

1. A stapled set of the two pages that make up this assignment.
